Projects

• CBSbaby - Android and IOS mobile application for new mothers (**React Native and php**)

Mobile application dedicated to new mothers, available on Android and iOS. It offers personalized advice, monitoring tools, and allows mothers to contact nurses for information and advice on interacting with their baby.

• CAPEX - Fullstack project management web application (**REACT JS, SYMFONY AND MYSQL**)

Web application for complete project management, with advanced features such as secure file storage via APIs, especially for quotes. In addition, it provides precise time tracking, automatically calculating delays or progress.

• REMED - Android & IOS application for Trash cleaning (**ReactNative, nodejs , mangodb**)

An Android and iOS application tailored for Tunisia, designed to enhance municipal cleaning efforts. The app leverages GPS and AI technologies to provide real-time location data from users, helping municipal cleaners efficiently manage waste collection.

Soft skills

- Adaptability - Continuous Learning
- Leadership - Team Collaboration
- Creativity - Critical Thinking
